The LED chip was tested under DC 1,9 A and belong to RG2 unlimited for all distances &lt; dmin 840 mm and belongs to RG1 unlimited for all distances &gt; dmin 840 mm according to IEC TR 62778: 2014.</p>
<p><b>Use of uncertainty of measurement for decisions on conformity (decision rule) :</b>                  No decision rule is specified by the standard, when comparing the measurement result with the applicable limit according to the specification in that standard. The decisions on conformity are made without applying the measurement uncertainty ("simple acceptance" decision rule, previously known as "accuracy method").</p>
